

PRODUCT DESCRIPTION

Jabil's PA6 - 4.0HG, high density polyamide 6 based compound is specially engineered for injection molding applications that require materials with high specific gravity. The compound boasts exceptional mechanical properties, including high tensile strength, stiffness, and toughness, making it the perfect material for applications that demand superior strength and durability.

OTHER PHYSICAL PROPERTIES

	Test Condition	Typical Values	Method
Density (g/cm ³)	Ambient	4.0	ASTM D792

About Jabil

Jabil (NYSE: JBL) is a manufacturing solutions provider with over 250,000 employees across 100 locations in 30 countries. The world's leading brands rely on Jabil's unmatched breadth and depth of end-market experience, technical and design capabilities, manufacturing knowhow, supply chain insights and global product
