

JEM PC/ABS A28-153D

PRODUCT DESCRIPTION

Jabil's latest eco-P> 4(P)2Dr> nePSt o8e8.2 9s8e4e> ne8. (4e)n> reh> r4e8ebt8.D

amount of plastic waste that ends up in landfills and helping to conserve natural resources.

PC/ABS A28-153D blend has exceptional mechanical properties, including high impact strength and toughness, making it ideal for applications where durability and reliability are essential. It also boasts excellent heat resistance and chemical resistance, making it suitable for use in a wide range of industries, including automotive, electronics, and consumer goods.

What sets Jabil's PC/ABS blend apart is its high toughness, which allows it to withstand harsh conditions and heavy impacts. It is also easy to process using injection molding or extrusion techniques, enabling fast and efficient production.

PROPERTIES

MECHANICAL PROPERTIES

	Test Condition	Typical Values	Method
Yield Strength (MPa)	Ambient	53	ASTM D638, Type I
Tensile Elongation at Break (%)	Ambient	>110	ASTM D638, Type I
Tensile Modulus (MPa)	Ambient	2400	ASTM D638, Type I
Flexural Strength (MPa)	Ambient	81	ASTM D790
Flexural Modulus (MPa)	Ambient	2250	ASTM D790
Izod Impact, notched (J/m)	Ambient	>770	ASTM D256

THERMAL PROPERTIES

	Test Condition	Typical Values	Method
Heat Deflection Temperature (°C)	0.455 Mpa	116	DMA
Heat Deflection Temperature (°C)	1.82 Mpa	88	DMA

OTHER PHYSICAL PROPERTIES

	Test Condition	Typical Values	Method
Specific gravity (g/cm ³)	Ambient	1.12	ASTM D792
MFR (g/10 min)	260C / 5 kg	11	ASTM D1238

*Burn properties are highly dependent upon printer settings and part geometry. Suitability for an application is the responsibility of the user.

*Disclaimer: The information in this technical data sheet, including material properties, are obtained from testing representative samples under carefully controlled conditions and are provided for reference only. Material properties may be impacted by storage, handling, processing equipment/parameters, and product design, among other factors. The information is
